Bachelor degree in computer engineering, fluent in English and Portuguese. Full rights to work in Australia. I worked in multiple roles in the past 8 years, from programmer/Web Developer to System analyst, role that I've worked for more than 6 years with different technologies and methodologies. Experience with ERP's, frameworks and CMS such as CakePHP, jQuery/Bootstrap and Wordpress. Full stack developer, self-taught, expertise in database modelling and maintenance, also in requirements gathering. I've experience with Scrum and Kanban and work well under pressure. For more than 5 years, I worked with Interns Management. Currently working as Senior PHP Developer with technologies such as PHP7+, Postgres/MySQL, Solr, Git and Node.JS.

Also work as freelancer, please visit my website to know more: www.llswebs.com
